

Our wet-weather policy is detailed in the MARKET TICKET, and further detailed below:

On the day a STALLHOLDER has the “call” until 8am.

That is, if STALLHOLDER is holding a paid ticket, we will exchange it for the next date wanted.

Or,

If STALLHOLDER has a reserved a site, but not yet paid, the stallholder can let us know the intention by 8am. Stallholder can also phone or text. In this case there is NO ticket to exchange. Just record the new request on the day sheet.

After 8am and before 10am, Rotary will determine the viability of the market if bad weather intervenes. In the event of Rotary declaring a "washout market" before 10am, tickets will be exchanged.

If bad weather intervenes after 10am, there will be no exchange. Why? Stallholders have had the benefit of trade from 8 am up until the time of washout being declared.

So, after 10am, be prepared to SELL next week tickets as usual.

If a washout has been declared, a stallholder can continue selling in the market until 1pm.

A Rotarian must remain on site in the market until 2pm.
